

## ▶ WHO WE ARE

We are an aligned group of therapists and practices who share a common vision for the future of our profession.

## ▶ OUR COMMITMENT TO QUALITY CARE

The Alliance for Physical Therapy Quality and Innovation (APTQI) unites community-based physical therapy practices to advocate for the profession in the areas of payment reform, quality initiatives, patient outcomes and innovation.

We work collaboratively with other leading professional groups to advocate for transparency, collaboration and an approach that will position our profession as vital to the healthcare delivery system. We are focused on increasing understanding of what we do by proactively advocating for therapists and the patients we serve.

## ▶ OUR COMMITMENT TO THE PROFESSION

Our goal is to establish physical therapy as a clinically appropriate treatment of choice with the best value for patients and payers. Physical therapy provides one of the best values in all of healthcare, and we are committed to educating healthcare policy influencers on our role in the healthcare delivery system in order to advance innovative policy solutions to stabilize payments and reduce regulatory burden to improve access to community-based physical therapy services.

## ▶ OUR MEMBERS

Our members are working together to secure the future of our profession by improving patient outcomes while also improving efficiencies in patient care. Our membership includes some of the nation's largest national and regional community-based physical therapy provider companies. Our members have community-based physical therapy practices across the country, with 5,000 locations in all 50 states plus Washington, D.C.
